

## Gellert Global Group Opens New Warehouse in Carson, California

Elizabeth, NJ - The Gellert Global Group has announced the opening of their new 204,000 square foot warehouse located in Carson, California. The Group consists of leading North American food importing companies and has been involved in importing food products for nearly 100 years. Andy Gellert, President of Gellert Global Group, remarked on the recent expansion, "The new space is a great opportunity to increase our presence on the West Coast and become more productive and efficient, in order to better serve our customers and suppliers." The Group supplies the needs of retailers, distributors, foodservice chains, hotels, cruise lines, and food manufacturers. The combined revenues of the Group exceed \$1 billion.

The new complex, Gellert Global Group West, includes ambient storage for almost 10,000 pallet positions. There are three temperature controlled zones: a 65° chocolate room for Swiss Chalet that accommodates over 2,100 pallet positions, a 34° room with 2,200 pallet positions, and a -5° freezer with 246 pallet positions. The building will also host a test kitchen, training room, and soon a custom bonded storage area. The new warehouse, located at 810 E. 233rd st. Carson, CA 90745, will be managed by West Logistics.

Atalanta Corporation and Swiss Chalet Fine Foods will be moving to this new West Coast facility from their current residence in neighboring Vernon. The building will also accommodate product inventory for The Group's members Camerican International and JF Braun.
